FLEXI® PRODUCT LEVELS

SAi Flexi Complete is the only all-in-one design, print and cut software for sign and print providers. With nearly 3 out of 4 shops using it, Flexi is the industry-standard for sign-specific design tools, RIP software, print-and-cut software, and direct vinyl cutting.

- **Powerful 64-Bit RIP**
- **Apply Contour Cuts & Weedlines in seconds**
- **Intuitive Nesting**
- **Advanced Color Management**

SAi Flexi DESIGN is the leading design software in the sign and print industry. Unlike other design software, Flexi DESIGN was created from the ground up for the sign and print industry which means it includes unique tools that make every aspect of designing, job preparation and production faster.

- **Powerful Vector Design**
- **Advanced Text Tools**
- **Intuitive Design Central**
- **Convenient Color Management**

FLEXI DESIGN IS AVAILABLE FOR BOTH PC & MAC OS

FlexiPRINT DTF DTG is a production powerhouse providing both time and ink-saving features that will drive up profits for your business.

Simplify DTF DTG design and production. Tools are conveniently organized under one tab, so you won't waste time scrolling through menu bars to find what you need.

Transparency mask options make printing white under flood easier than ever, including for transparent TIFF and PNG files.

- **Easy to Use Interface**
- **Versatile White Ink Workflow**
- **Improved Output Control**
- **Material Saving Technology**

WHAT VERSION IS BEST FOR ME?
