

Flexi[®] DTF PRO

POWERING PROFESSIONAL DTF | DTG
Smart Tools, Cleaner Workflow and Professional Results

DTF MADE SIMPLE

Everything you need, in one spot.

Streamlined Layout

Clean, organized and easy to navigate.

Simplified Workflow

Enjoy a smooth process that connects all the steps.

Modern Look

Designed for production, not complexity.

KNOCKOUT COLOR MADE EASY

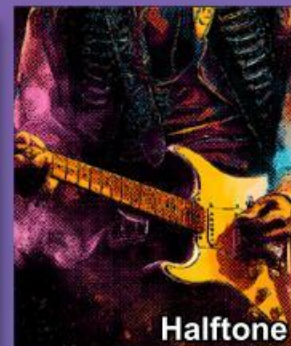

Easily remove garment color from your graphic using the eye dropper tool and color picker. Adjust tolerance for clean and precise edges resulting in a lighter, more efficient print.

BUILT IN HALFTONE CREATOR

- Generate halftones right inside Flexi[®] DTF Pro.
- Fine-tune halftone frequency, angle, and tone to create smooth, natural gradients. No more muddy prints—just clean, professional blends.

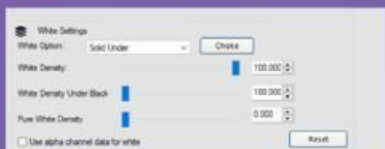

Original

Halftone

*More halftone patterns coming soon!

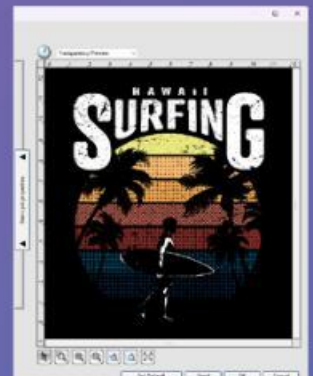

TOTAL WHITE INK CONTROL

- Preview every print layer
- Manage white ink density for the ultimate feel and weight of garments.

INSTANT PREVIEW, ZERO GUESSWORK

Preview windows generate instant feedback as you adjust your tolerance, smoothness, halftones, distressed effects, removing the guesswork before you print. Fewer unknowns, means less waste!

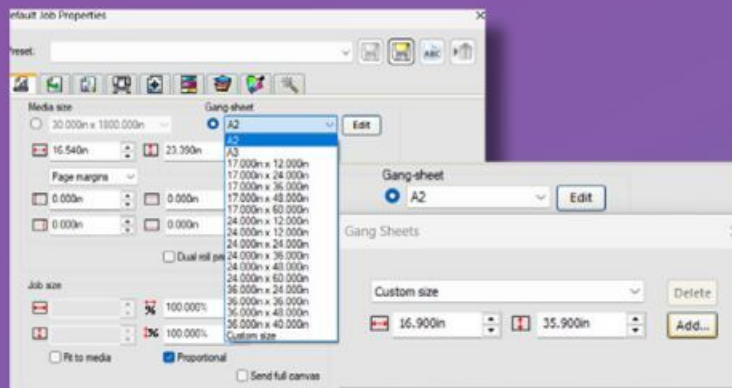

GANG SHEETS

- Many ready-to-go gang sheet templates
- Create custom ones as needed

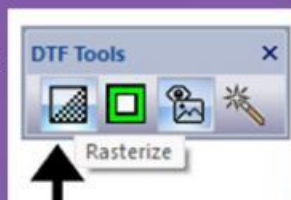

NEW DTF TOOLBAR!

4 new tools and options in Flexi DESIGNER to make creating easier, faster, and more intuitive.

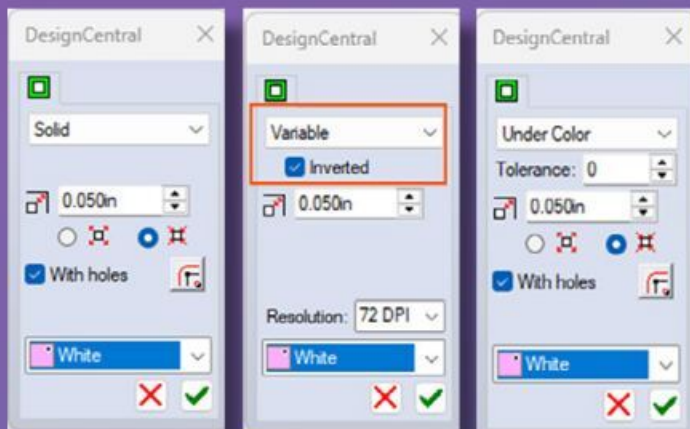

1) RASTERIZE BUTTON

Quickly rasterize your image with a simple click of a button.

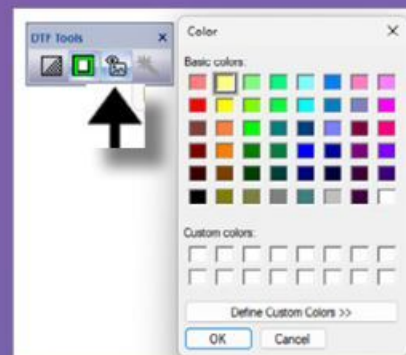

2) WHITE UNDERBASE OPTIONS

Manage your white ink with fast options to lay a solid white background, variable, or under color.

3) GARMENT COLOR PREVIEW

Change the color of just the background to quickly preview the color of your garment. Change colors fast to see how your design will look on multiple color garments.

4) MAKE TRANSPARENT TOOL

Easily make parts of your image transparent by selecting an area or color. With the new smooth edge and radius controls, your images look cleaner and more professional than ever.
